Oral Health in Ohio, 2021 2 CEU's

Since the 2000 Surgeon General's report on oral health, interest in oral health by non-oral health professionals, as well as the public, has steadily increased. The research and promotion of the links between oral disease and systemic health has further propelled oral health into the public arena.

Updates will be provided on the efforts to improve oral health outcomes across the lifespan by Oral Health Ohio (OHO), a statewide coalition of partners who advocate and educate to improve oral and overall health for all Ohioans.
